Failed antegrad attempt
(Caravel, Fielder XT, Gaia2nd)

RCA CTO

Autoretrograd collateral

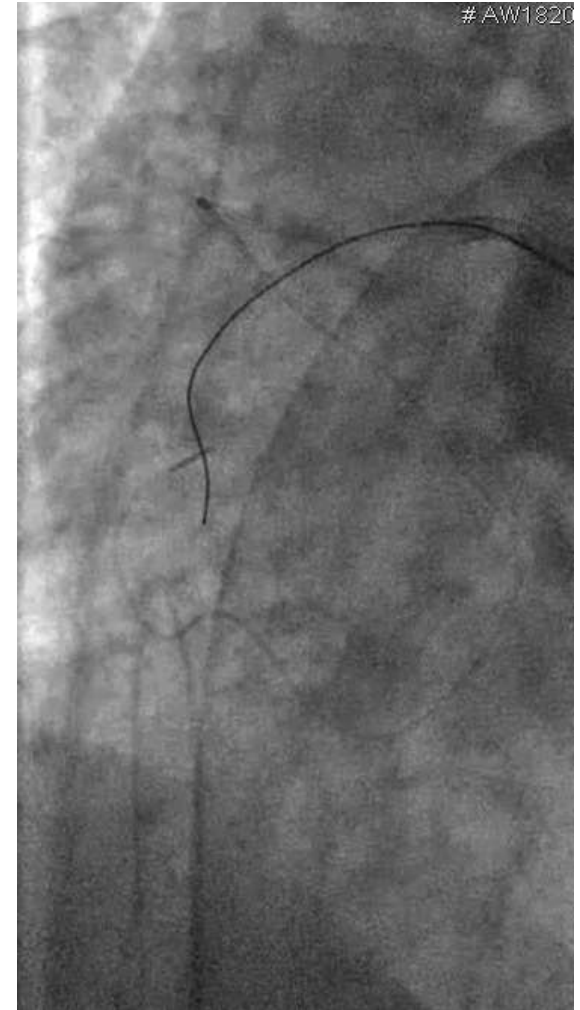

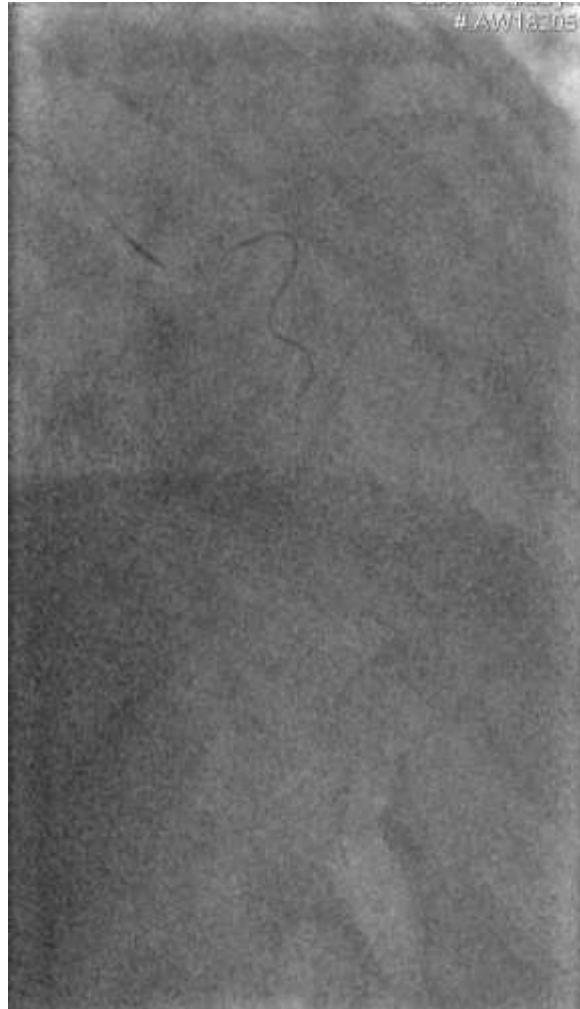

RCA CTO

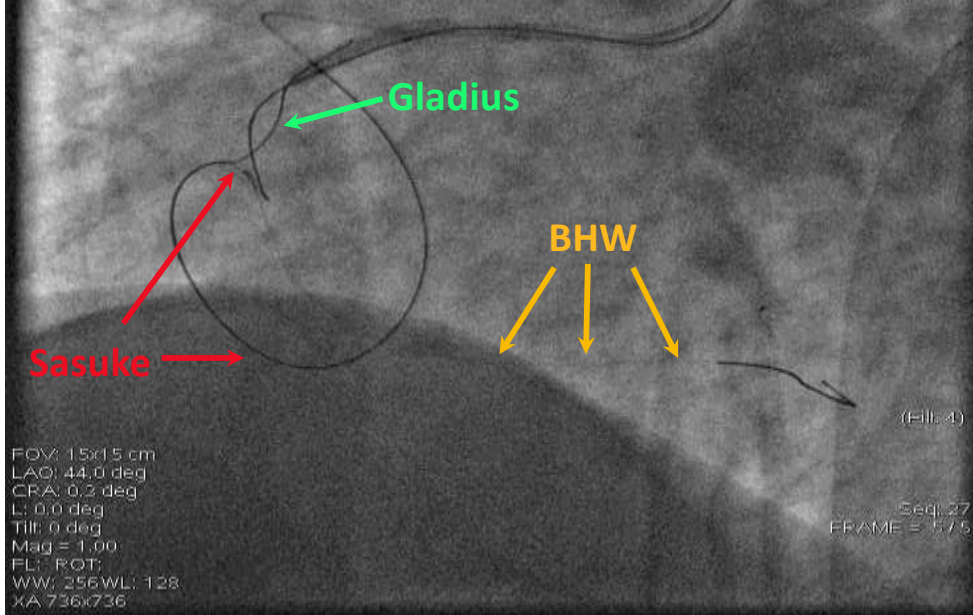

- Caravel 150cm
- Suoh03
- Sion Black

Problem:

- zero retrograd support
- „rocking motion” due systole an dyastole

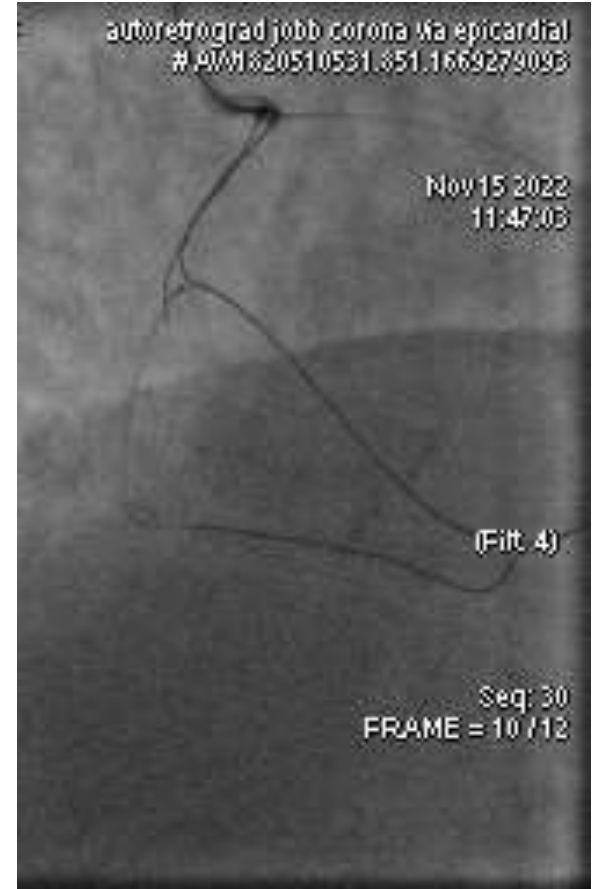

Nov 15 2022
11:43:40

RCA CTO

- BHW wire to distal PDA and switch to **retrograd Sasuke** for stability and support
- retrograd puncture from Sasuke
